PALOMA VILCHIS RIZO

Vancouver, BC | 778 984 4918 | palomichys@gmail.com | linkedin.com/in/paloma-vilchis | github.com/pvilchisrizo

HIGHLIGHTS / SUMMARY

Full-stack web developer with a UX/UI Design Associate Certificate and hands-on experience building projects with JavaScript, Node.js, Express, MongoDB, React, React Native and REST APIs. Brings 6+ years of international experience in technical training, documentation, and customer-facing problem-solving, translating complex concepts into clear, user-friendly solutions. Created and maintained technical training documentation in Confluence, SharePoint, and Notion, and delivering it through LMS platforms like Cornerstone OnDemand and WorkRamp, keeping content accurate as products and processes evolved. Skilled at collaborating across teams, picking up new tools quickly, and communicating technical ideas in both English and Spanish. Brings value to development teams through strong documentation habits, mentorship experience, and a track record of improving processes and outcomes — including cutting training delivery time by 40% and raising pass rates from 60% to 80% at PayPal.

SKILLS

JavaScript | Node.js | Express | MongoDB | Mongoose | HTML5 | CSS | React| React Native| REST APIs | Git/GitHub | LMS| Figma | Camtasia | Technical Documentation | Cross-functional Collaboration | Bilingual (English/Spanish)

EXPERIENCE

PayPal, Vancouver, Canada

Technical Trainer Mar 2018 – Apr 2024

- Designed and developed tailored training materials (manuals, guides, interactive content) using Camtasia, WorkRamp, and Confluence, translating technical concepts into clear, user-friendly documentation.
- Created and maintained a library of training documentation in Confluence and the LMS, keeping content organized, version-controlled, and up to date as products and processes changed.
- Managed Learning Management Systems (LMS) to track employee progress, evaluate training effectiveness, and refine curricula for continuous improvement.
- Cut training delivery time by 40% and raised pass rates from 60% to 80% by developing visually engaging e-learning modules, video tutorials, and step-by-step guides.
- Upskilled 200+ Hyperwallet customer service reps and onboarded 150+ recruits across Canada, Mexico, the Philippines, and the US, blending in-person and virtual training.
- Led train-the-trainer certifications and in-person training for 50+ reps in Mexico City and the Philippines, collaborating with project managers to meet objectives.

Bilingual Customer Service Specialist Jan 2017 – Mar 2018

- Provided bilingual (English/Spanish) customer support via phone, chat, and email, resolving inquiries and documenting cases in the support system.
- Identified customer needs and escalated complex issues to higher-tier support, ensuring timely resolution and customer satisfaction.

Bank of America, Guadalajara, Mexico

Quality Auditor & Senior Team Member Nov 2010 – Nov 2013

- Conducted quality audits of internal processes to identify inefficiencies and compliance issues, ensuring alignment with corporate standards.
- Partnered with cross-functional teams to streamline workflows and increase productivity.
- Delivered feedback based on audit findings to support continuous professional growth.

Grupo Villamex S.A. de C.V., Guadalajara, Mexico

Customer Service and Sales Executive Feb 2010 – Nov 2010

- Advised national and international clients on industrial machinery for tortilla production.
- Created detailed product quotations, collaborating with sales and technical teams on pricing.

EDUCATION

AI Builders Bootcamp

UBC Extended Learning Circuit Stream 2026

Hands-on program emphasizing practical skills, covering the tools and workflows used to design, build, and deploy AI-powered solutions using Python and core data libraries such as Pandas and NumPy.

Software Development Bootcamp

UBC Extended Learning Circuit Stream 2026

Intensive, project-based full-stack web development program covering JavaScript, Node.js, Express, MongoDB, and REST API design.

Highlight projects:

- **Weather App —** React project using API key from OpenWeatherMap, modern and visually appealing user interface using CSS, option to choose between Celsius and Fahrenheit and a five-day forecast display.
- **Soapbox** — full-stack social posting app with a teal/dark-green palette and Atkinson Hyperlegible typography; built with JavaScript, Node.js, Express, and MongoDB.
- **To-Do App** — full-stack CRUD app built with Mongoose, Express routes, and a fetch-based frontend, backed by MongoDB Atlas.

User Interface (UI) and User Experience (UX) Design Associate Certificate

British Columbia Institute of Technology

2025

Highlight projects:

- Zara.com Usability Study — Led usability testing (5-second tests, think-aloud tasks, SUS scoring); identified key search, consistency, and accessibility issues and proposed redesign solutions.
- The Urban Camp — Redesigned the site to improve navigation and streamline the registration process, applying a research-driven process from user testing through to a high-fidelity Figma prototype.
- Event Ticketing App — Designed working prototype of an app for selling event tickets, applying user flows, wireframes, and prototyping to create an intuitive booking experience.

Bachelor's Degree, Marketing,
University of Guadalajara 2005

ACHIEVEMENTS

- Recognized by PayPal managers and clients for delivering top-quality training programs that measurably improved team performance and customer experience.
- Certified train-the-trainer candidates in delivering and evaluating product training in line with PayPal standards.
